## PROFESSIONAL EXPERIENCE

### CURRENT EMPLOYER:

**Infogain India (P) Ltd.**, NOIDA, Uttar Pradesh, India  
May'12–Till Date

<b>1. TITLE : Navis (Externalization)</b>	
TECHNOLOGIES : Groovy, JAVA/J2EE, Spring, Hibernate, HTML5, N4 2.5, XPS client & ECN4, Agile Scrum	TEAM SIZE : 9 DURATION : Since May'13 ROLE : SSE
DESCRIPTION: Navis is a company which has created a port management operating system Navis N4 & XPS which manages all types of container, vessel, truck etc. movements on the shipping lines & ports. It's the leading organization in providing the end to end real time solution for the port worldwide.  In Infogain we are working as the implementation partner of Navis & our work is related to the Externalization of the Navis N4 systems using internally exposed mechanism as a part of this team I am currently working for the client MTL since last one year and have to client site @ Hong Kong on multiple occasions. My job currently is to resolve the client requirements & implement their specific business requirements on N4.	

<b>2. TITLE : GlamSer</b>	
TECHNOLOGIES : JAVA/J2EE, REST, HTML5, AngularJS, jQuery, CSS3, DCTM, TomCat WS, Agile Scrum	TEAM SIZE : 5 DURATION : Since Apr'14 ROLE : SSE & Lead
DESCRIPTION: GlamSer is a new project which has a requirement of revamping & moving its existing application to more robust & reliable niche technologies. My job is to lead junior programmers & develop a framework to implement REST web service which will be used as a service to have communication between newly created HTML5/AngularJs user interface & the existing Documentum backend system.	

<b>3. TITLE : Asset Visibility Solution</b>	
TECHNOLOGIES : JAVA/J2EE, Spring, Hibernate, REST, HTML5, KendoUI, jQuery, CSS3, MySQL, N4, SOAP, TomCat WS, Jasper, Agile Scrum	TEAM SIZE : 9 DURATION : Feb'13 - Mar'14 ROLE : SSE & Lead
DESCRIPTION: Asset Visibility Solution is in house product developed by the Infogain to have a common application to provide clients of LOGISTIC domain with a web & mobility solution. It provides a web & mobile interface to the clients to access the Navis N4 data with an extensive reporting & data mining tools.	

<b>4. TITLE : IAS ( DM, HUB5 &amp; CHS)</b>	
TECHNOLOGIES : JAVA/J2EE, Spring, Hibernate, SOAP, HTML5, SmartClient, CSS3, Oracle, WebLogic, JMS, Jasper, JRule, Agile Scrum	TEAM SIZE : 13 DURATION : Feb'13 - Mar'14 ROLE : SSE & Lead
DESCRIPTION: DM, HUB5 & CHS is a Software-as-a-Service solution to simplify the process of dispatching equipment moves, login & role management, managing Chassis. It automates the entire transport work order process from creation, assignment, accessorial amendments, to proof of delivery and invoicing. Solution also includes Optimization of Work order process by including two different moves into one Work order if they share common route of transportation.
